

Mini Cornhole Board Plan

12 x 24 in tabletop board, half scale -- top and side views

Mini and tabletop boards are a half-scale regulation board: 12 x 24 in with a 3-in hole 4 1/2 in from the top and 6 in from each side
Back edge 6 in, front edge 1 1/2-2 in keeps the regulation slope; use 1/4- or 3/8-in plywood on a 1 x 2 frame
There is no official mini size -- these are the proportions most kits use; bags are 3 x 3 in at about 4 oz
Set the boards 8-10 ft apart on a table or floor
