

Darts Throw Line Marker

Cut, measure from the face of the board, tape down

1. Cut along the heavy black line above the bar. 2. Put the cut edge on the floor at the distance below, measured from the FACE of the board. 3. Tape it down.

BOARD THIS WAY

THROW LINE · OCHE

toes behind this edge

STEEL TIP (WDF / PDC)

7 ft 9 1/4 in (2.37 m)

Diagonal from the bull: 9 ft 7 3/8 in (2.93 m)

SOFT TIP (NDA / electronic)

8 ft (2.44 m)

Diagonal from the bull: about 9 ft 9 1/2 in (2.99 m)

Bull centre 5 ft 8 in (1.73 m) off the floor. A raised oche, if you fit one, is 1 1/2 in high and at least 2 ft long (WDF).

The marker is 9 1/2 in wide as printed; the regulation raised oche is 24 in -- extend the line with tape.
