

How to Rack -- 8-Ball, 9-Ball, 10-Ball

Ball positions with the apex on the foot spot

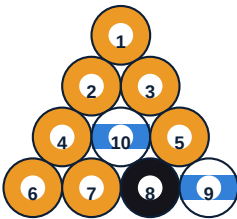

8-BALL (15 balls, triangle)

9-BALL (diamond)

10-BALL (triangle)

- 8-BALL

Apex ball on the foot spot. 8 in the centre of the third row. One stripe and one solid in the two back corners. The rest at random -- do not alternate deliberately under WPA rules. Cue ball breaks from behind the head string.
- 9-BALL

Diamond of nine. 1 at the apex on the foot spot, 9 in the middle, the rest anywhere. Lowest-numbered ball must be hit first; the 9 wins in any pocket after a legal hit.
- 10-BALL

Triangle of ten. 1 at the apex on the foot spot, 10 in the middle of the third row, 2 and 3 in the back corners. Call shot, 10 must be pocketed legally to win.

Rack tight -- every ball touching -- with the apex ball centred on the foot spot. Layouts per the WPA World Standardized Rules.
